

Foreclosed or Distressed Properties Webinar

August Mack Environmental and The Schneider Corporation are pleased to present a four-part series on Dealing with Foreclosed or Distressed Properties. The purpose of this series is to provide brokers, lenders, investors and owners with the resources and information they need in order to quickly sell their distressed or foreclosed property. The four-part series will cover the following topics:

- What are the first steps in handling a foreclosed or distressed property?
- Environmental and Physical Property Condition Due Diligence (Environmental Site Assessments and Property Condition Assessments)
- Engineering Due Diligence (Entitlement, Survey, Title and Cost-to-Cure and Complete)
- Additional Environmental and Engineering Tools for Brokers, Lenders, Investors and Owners of Distressed Property

Join August Mack Environmental and The Schneider Corporation to “RE-Start” your efforts with your foreclosed and/or distressed properties by attending our four-part webinar series! Click on the links below to register for each of the webinars in the series.
